## Indian Science Congress Association (ISCA)

The Indian Science Congress Association (ISCA) owes its origin to the foresight and initiative of two British Indian Chemists, namely, Professor J. L. Simonsen and Prof. P. S. McMahon. The Association was formed with the following objectives:

- To advance and promote the cause of science in India
- To hold an annual congress at a suitable place in India
- To publish proceedings, journals, transactions and other publications, and
- To popularize the benefits of science to the environment and society.

## ISCA, Bhubaneswar Chapter

One of the focal objectives of Indian Science Congress Association (ISCA), the premier and the oldest scientific organization of the country, has been to promote scientific temper among young scholars as well as mid-career scientists and to encourage them for participating in various programmes relevant to fundamental, experimental and operational activities aimed at human welfare. Keeping in view, ISCA initiated opening of Regional Chapters since 1986–87 at various places in the country.

The Bhubaneswar Chapter of the ISCA was started on June 5, 1996. Since 1997, in order to promote scientific temper, the Chapter has been regularly holding a seminar on the theme of the ensuing Indian Science Congress. Besides this the Chapter has been successfully organizing several kinds of activities like observation of: National Science Day, World Environment Day, Environment Awareness Campaign, Workshops/Seminar/Conference, Exhibitions, etc. ISCA Bhubaneswar Chapter is going to organize National Seminar on Science & Technology for National Development in India on December 18-19, 2017 with association of KIIT University Bhubaneswar.

## KIIT University

Kalinga Institute of Industrial Technology (KIIT) University has come a long way within the shortest span of time as world class institution. Since its inception in 1993, KIIT has been emphasizing on quality education and it was declared as a University (u/s 3 of UGC Act of 1956) in 2004. The multi-disciplinary university having 28 constituent schools is presently offering diverse programmes with 27,000 students pursuing bachelors, masters and doctoral studies in Engineering, Management, Medicine, Dental Science, Nursing, Fashion Technology, Cinema & Mass Media Studies, and Language & Sculpture etc.

## Focal Theme

The societal expectations from S&T are increasing with rapid advances in Science and Technology. These expectations impose upon the scientific community the responsibility of fulfilling multifarious societal needs. To make Indian science and technology more noticeable, involvement of Institutions of higher education is required thereby motivating young minds to contribute to challenging areas requiring advanced research.

Society has received immense benefit from the scientific discoveries which has reached the common man through a form of technology. A new technology which has impacted the society has very strong science backbone. Today, India needs to strengthen its scientific knowledge for development of relevant technologies which can be catered to the common masses. This is only possible through promoting and nurturing affordable innovation. This seminar will focus on translational science for promoting affordable sustainable innovation
