Theme:

Making AI in India & Making AI Work for India

14th August, 2024

Organised By

KIIT School of Economics & Commerce

&

Internal Quality Assurance Cell Kalinga Institute of Industrial Technology, Bhubaneswar,Odisha, India

Email ID: dr.am2020sm@gmail.com

About KIIT-Empowering Minds: Nurturing Leaders

Kalinga Institute of Industrial Technology (KIIT), renowned in the education sector, has emerged as a highly sought-after academic institution in India. Established in 1997, KIIT Deemed to be University (DU) has consistently grown and is widely respected for its academic excellence, extensive community engagement, and ethos of compassion and humanitarianism. Its remarkable expansion over just 25 years has made it a unique case study in Indian education. KIIT is dedicated to providing high-quality education, ensuring stakeholder safety and well-being, fostering innovation and skill development, and nurturing a culture of growth and success. Its incredible transformation is truly a journey from Soil to Silver. All the achievements of KIIT DU have been possible because of its founder - Prof. (Dr.) Achyuta Samanta – lovingly called Samanta Sir – the epitome of principles, discipline, hard work, and selfless service. It truly is an inspiring story of a humble man steering two institutions: KIIT & Kalinga Institute of Social Sciences, to glory despite all the hardships and struggles.

About School of Economics and Commerce

The School of Economics and Commerce, is dedicated to equipping its students with both professional and life skills necessary to achieve holistic life objectives. A highly qualified faculty panel inspires and guides students toward their accomplishments. To further enrich students' career readiness, the school offers internships and field visits integrated into the curriculum for undergraduate and postgraduate students, facilitating practical learning experiences. The school exemplifies a blend of conventional teaching methods with modern technologies such as Wi-Fi enabled classrooms and projectors. Whether emphasizing collaborative learning, research, outreach activities, expert interactions, professional skills development, or relevant curriculum, every aspect of our programs at the school receives comprehensive attention.

About IQAC

The Internal Quality Assurance Cell (IQAC) at KIIT was established to direct the institution's endeavors and initiatives towards achieving academic excellence and advancement. Designed as an integral part of the University, IQAC leverages the collective strengths of all its departments and stakeholders. Its primary objective is to cultivate a comprehensive culture of quality within the institute by consolidating institutional efforts towards this goal.

About Viksit Bharat 2047

Viksit Bharat 2047 is a visionary initiative aimed at transforming India into a developed nation by its centenary year of independence. This ambitious blueprint focuses on achieving holistic growth through strategic advancements in technology, infrastructure, education, and healthcare. Emphasizing sustainable development, the initiative seeks to foster inclusive growth, reduce inequalities, and enhance the quality of life for all citizens. Viksit Bharat 2047 envisions India as a global leader, leveraging its rich cultural heritage and demographic dividend to build a prosperous, innovative, and equitable society. "Viksit Bharat @2047: Voice of Youth" seeks to amplify the voices of young Indians, empowering them as catalysts for positive change and development towards India's centennial independence celebrations in 2047.

About Conclave

The IndiaAI mission is a transformative initiative designed to position India as a global leader in artificial intelligence. "Making AI in India" focuses on nurturing a robust AI ecosystem by fostering innovation, research, and development within the country. Concurrently, "Making AI Work for India" aims to harness AI's potential to address critical national challenges, drive economic growth, and improve the quality of life for all citizens. By integrating AI across sectors such as agriculture, healthcare, education,

and governance, the IndiaAI mission envisions a future where AI-driven solutions empower every Indian and propel the nation toward sustainable and inclusive growth. Join us as we delve into the strategies and opportunities that will shape India's AI landscape and create a brighter, smarter future. Integrating sustainability into IndiaAI involves leveraging AI to address environmental, economic, and social challenges while ensuring ethical considerations are prioritized. By doing so, India can harness the full potential of AI to achieve long-term sustainable development goals. To catalyze this mission and facilitate discussions, exchange of ideas, and collaborations, we are organizing this conclave. The objectives of the conclave are:-

- 1. Educate stakeholders about the significance of the IndiaAI mission and its potential impact on various sectors of society.
- 2. Facilitate knowledge-sharing among AI researchers, policymakers, industry leaders, and academia and students to foster innovation and collaboration.
- Engage in discussions to shape policy frameworks that support the responsible and inclusive development in line with SDGs and deployment of AI technologies in India.
- 4. Provide a platform for sharing AI research, applications, and solutions developed within the Indian ecosystem.
- 5. Foster networking opportunities for participants to establish partnerships, collaborations, and mentorship within the AI community.

Call for papers

Papers are invited on various sub themes of Making AI in India and Making AI Work for India, like AI and sustainability, AI innovation ecosystem in India, AI applications in agriculture and allied sectors, AI transforming Industries, AI renovating service sector, AI in tourism and culture, AI in sustainable economic growth and development, AI reshaping the health and education, AI and culture, AI and governance, ethical and legal implications of AI, AI and work from home. Developing fair and unbiased AI systems in AI (biased AI algorithms affecting marginalized communities, case studies on gender, racial, and socio-economic biases in AI).
